## CATARRH

### A PHYSICIAN'S TESTIMONY.

30 Years a Physician. 12 Years a Sufferer. Tried Regular Remedies. Tried Patent Medicines. Permanently cured by **SANFORD'S RADICAL CURE.**

**MRS. W. E. POTTER.**—Sir: I have been a sufferer from Catarrh for thirty years. I have tried every remedy known to man, but have not been cured. I have used your medicine, and I am now cured. I am now a healthy woman, and I am able to do all the work of a housewife. I am now a healthy woman, and I am able to do all the work of a housewife. I am now a healthy woman, and I am able to do all the work of a housewife.

**DR. D. W. GRAY & SONS, Physicians and Surgeons, Muscatine, Iowa.**  
Muscatine, Iowa, March 25, 1897.

The value of this remedy must not be overlooked in the cure of these

## SYMPATHETIC DISEASES,

Affections of the Eye, Ear, Throat, Lungs and Bronchial Tubes which in many cases accompany a severe case of Catarrh. The mucous membrane of all these organs is inflamed, and the system is brought into a state of general debility. The **RADICAL CURE** perfect freedom from these diseases cannot be reasonably expected. It is but three years since **SANFORD'S RADICAL CURE** was introduced to the public, but in California, and in a few other States, it has been brought to the attention of the medical profession, and it is now being used by many of the best physicians. It is a remedy of great value, and it is a remedy that is not only a cure for the disease, but it is a cure for the system. It is a remedy that is not only a cure for the disease, but it is a cure for the system. It is a remedy that is not only a cure for the disease, but it is a cure for the system.

Each package of **SANFORD'S RADICAL CURE** contains Dr. Sanford's Improved Inhibiting Tube, with full directions for its use in all cases. Price \$1.00. Sold by all wholesale and retail druggists and dealers throughout the United States and Canada. **W. E. POTTER, General Agent and Wholesale Druggist, Boston, Mass.**

## COLLINS' VOLTAIC PLASTER

IS SIMPLY WONDERFUL.

**KINGSTON, MICH.**—I consider **COLLINS' VOLTAIC PLASTER** the best plaster I ever saw, and I am recommending it to all. **C. McCREW.**

## NOTES FOR LADIES.

Berlin is to have a hospital attended by women physicians only.

Some men are like chestnut burrs; you must smooth them the right way or you will get hurt.

Rev. Alvin Bartlett, of Indianapolis, says that men do not fall in love, but they rise into it.

A great many ladies in fashionable society are studying to become first-class artists. They begin their career of glory by painting themselves.

"Extremes meet" in a Salt Lake Mormon high official, who has just married a mother of 60 and her daughter of 16. By the way, what relation are mother and child now?

Susan B. Anthony has visited the Metropolitan Theater, and the subject of her next letter will be the same as that of her last, with a variation: "Men want the ballet, not bread."

The reason for a girl's not being able to throw anything with the accuracy of a boy is that her collar bone is several inches longer and several degrees lower down, and being long and hooked interferes with the free action of the shoulders.

When we see poor women trying to get a living by making shirts at ten cents apiece, or teaching in a public school at half the salary which the masculine gender demands for the same work, we feel that the little girl was right who said, "I wish God would smash me all to pieces and make me into a boy."

How Our Grandfathers Studied "Jography" in 1817.

Mr. George W. Green, of 66 Baker street, has a veritable curiosity in the shape of a little old book of 210 pages, entitled, "A System of Universal Geography for Common Schools, in which Europe is divided according to the late act of the Congress at Vienna," by the Rev. Nathaniel Dwight. The imprint shows that the book was published at Northampton in 1817, and the preface states that it was a second and revised edition of a work published in 1795. In those days, it appears, the study of geography in the common schools was carried on without the aid of maps, and only a heading of larger type than the rest was used to denote the jump from one country to another. The information was conveyed wholly in the shape of questions and answers, and by reprinting the section referring to Michigan, we can give a fair idea of the whole work:

Question—What is the situation of the Michigan territory?

Answer—It lies north of Ohio; between Lake Michigan on the West, and Lake Huron and St. Clair on the East. It is 300 miles long and 300 broad.

Question—What are the divisions?

Answer—It is divided into four districts, Erie, Detroit, Huron and Michilimackinac.

Question—What is the face of the country?

Answer—It is a mere flat; the soil is fertile, and produces apples, maize, wheat, oats, barley, buckwheat and potatoes.

Question—What are the rivers?

Answer—St. Mary's, St. Clair, Detroit, Raisin, Huron and St. Joseph.

Question—What lakes border this territory?

Answer—Michigan, Superior, Huron and St. Clair.

Question—What is the natural growth?

Answer—The trees and wild fruits of New England.

Question—What island belongs to this territory?

Answer—The Island of Michilimackinac, in the straits of the same name, on which is a well known fort.

Question—What is the population?

Answer—In 1810, 4,762, beside a considerable number of Indians.

Question—What are the religious denominations?

Answer—Catholics and Methodists.

Question—What is the government?

Answer—It is under the government of Congress.

Question—What is the capital?

Answer—Detroit: It had, in 1810, 80 houses and 770 inhabitants.—*Detroit Free Press.*

Washington's Laugh.

It is pleasant to learn that once upon a time Washington not only laughed, but "fairly roared." The biographers have so swathed him with dignity that the man seemed lost in the hero. A writer in *Lippincott's Magazine* tells the following story, which she heard when a little girl from Mrs. Madison:

"One day, in Philadelphia," says Mistress Dolly Madison, "I was sitting in my parlor with a very dear friend, Mrs. R. B. Lee, when in walked Payne Todd (her son) dressed in my calico bed-gown. While we were laughing at the figure he cut, the servant flew open the door and announced General and Mrs. Washington. What to do with that dreadful boy I didn't know. He could not face the President in that garb. Neither could he leave the room without meeting them, for the door they were entering was the only one. I made him crawl quickly under a low, broad settee on which I was sitting. I had just time to arrange the drapery when the Washingtons entered. After the customary compliments of the season, there came from under the settee a heavy sigh, which evidently attracted the General's notice. However, I only talked and laughed a little louder, hoping to divert his attention when—oh, me!—there came an outcry and a kick that could not be ignored. So I stooped down and helped Payne out by the leg. General Washington's dignity left him for once. Laugh! Why he fairly roared! He nearly went into convulsions. The sight of that boy in that gown, all so unexpected, coming wrong end first from under my seat—it was too much."

A Responsible Situation.

I wish to employ an energetic man of forty, to sit in my hall and be my agent—answerer and peddler-conciliator. I cannot say that the work is light, but the wages will be good. I want him to be well up in arithmetic, so that he may be able to entertain the man with the big bible to sell. He must know music so as to baffle the man who has sworn to sell my house an organ. He must be able to detain the agent of Boring & Bledsoe's unrivaled sewing machine, and so control the conversation that the kind-hearted agent shall depart feeling that enough has been said. He will have to be kind to the man with brooms, but, at the same time, firm. To the person who appears as agent of the Consolidated Encyclopedia of Medieval Literature, he must exercise urbanity and not attempt to curtail the conversation, the work having been subscribed for by Mr. Goldpot and Mr. Silverware, leading citizens. In fact, as to all these agents, he must be patient, respectful, polite. There is one visitor, though, upon whom I shall permit him to expend his pent-up feelings. He shall not only be allowed, but authorized, to smash in to 500,000 fragments the person who comes and leaves a patent medicine circular, and asks that the circular be returned when called for. Address Redundance, box 300,000.—*Courier Journal.*

The Telephone.

Mr. Baingbal (city merchant).—"Most convenient! I can converse with Mrs. B.

just as if I was in my own drawing room. I'll tell her you are here." (Speaks through the telephone.) "Dawdles is here—just come from Paris—looking so well—desires to be," etc., etc. "Now you take it, and you'll hear her voice distinctly." Dawdles "Weally" (Dawdles takes it.) The voice—"For goodness sake, dear, don't bring that insufferable noodle home to dinner!"

VEGETINE

FOR

Chills, Shakes, Fever and Ague.

TANBORO, N. C., 1878.

Dr. H. R. STEVENS:—Dear Sir—I feel very grateful for what your valuable medicine, Vegetine, has done in my family, wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sick with measles in 1873, which left him with *Hip-Joint* disease. My son suffered a great deal of pain, all of the time; the pain was great he did nothing but cry. The doctors did not help him a particle, he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the *Louisville Courier-Journal*, that Vegetine was a great blood purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eighteen bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a younger son, fifteen years of age, who is subject to Chills. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and feels the last of that *Chill*. Vegetine leaves no bad effect on the system like most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints. I think it is the greatest medicine in the world.

Respectfully,  
Mrs. J. W. LLOYD.

## BRIEFLETS.

—April.  
—Fool's day.  
—Make ready to vote.  
—Last month with an "i" in it. Ta, te, Mr. Oyster.  
—Piano recital at Miss Battle's rooms this evening.  
—March made a modest exit, but didn't get an encore.  
—Janeyville has not organized its baseball talent yet into any definite form.  
—Everyone has something in his postoffice box to-day. Step up and pay your dues.  
—Even the religious ones don't want to see any Church-going among the new adherents.  
—No tramps have been locked up for three days. The roads have been in bad condition.  
—The Marks family who will go with Burr Robbins this season, arrived from the East to-day.  
—The Knights of Pythias are talking of having Wheeler's hall for their regular place of meeting.  
—Will Webster was out in his shell to-day, and his stroke was watched closely by bystanders on the bridge.  
—Mr. Cyrus Miner has been quite sick for several days of pneumonia. He is reported as some better to-day.  
—Owing to the indisposition of Rev. Mr. Sanderson there was no evening service at the Presbyterian church last evening.  
—The Court Street Methodists will have their next social at the residence of Mr. H. S. Hogueboom, on South Franklin Street.  
—Nearly all the civil cases before the justices and other legal business, has been postponed until after the election is passed.  
—Mr. Nye proposes to leave Delavan, and start in the photograph business in Janeyville. So says the Delavan Republican.  
—Don't fool away your vote by casting them for men who will give away the city's money to their friends on the plea of charity.  
—M. C. Smith & Son have something new to tell the public in general and their patrons in particular. You can see it in another column.  
—The communion service at the Presbyterian church yesterday, is said to have been unusually impressive, and greeted by an unusually large audience.  
—Some one last night poisoned a valuable dog belonging to Mr. E. H. Davies. Whoever did it would greatly accommodate Mr. D. by sending his card.  
—The street gang are to have a number of balls for their benefit. They are being cast now, and will be attached by a chain to their ankles, whenever they are deemed liable to escape.  
—Miss Hattie Brace, one of Janeyville's most popular teachers, has been obliged to leave the school-room in the First ward, on account of ill health, and is now reported as being quite seriously ill.  
—It is reported that Sergeant Childers spoke last Friday evening to the ladies of Fort Atkinson, and a number of them took the pledge. He had better give such a lecture to the Janeyville women.  
—Father Doyle's sermon yesterday must have been a remarkably interesting one, and full of merit, judging from the unusual amount of complimentary talk current on the streets among those who listened to him.  
—Frank Barnett is visiting home again for a few days. His trip to the West, has caused him to decide that Cedar Rapids, Iowa, is a desirable place in which to open up a dry goods store, and he will proceed there next Wednesday.  
—The quickest, easiest and surest way to secure a good municipal government for the ensuing year is to step up to the polls to-morrow, and drop a Republican ticket into the box, and drop the Democratic ticket into the gutter.  
—Baines & Green have been wintering on their stock farm, near Evansville, about 100 of Burr Robbins' horses. The horses have been brought in and look in first-class condition, and have evidently received more than ordinarily good care.  
—It is understood that the committee of the Fifth ward will make no further nomination for alderman to fill the vacancy caused by the declination of Mr. Lobley published elsewhere, but that they recommend the support of Mr. Nobthorn.  
—Jerry Dayton has a two acre lot on his place in the town of Janeyville, where the wheat is up an inch and a half, and is looking nicely. On McKee's farm in the same town is a patch of wheat an inch high and never looked more promising.  
—The worshippers who gathered in the First Methodist church last evening, waited for the coming of some minister until they were weary, and a large number migrated to other churches, where they arrived just late enough to disturb the opening services.  
—There are now only twenty-four in the jail, all of whom are of the male persuasion, and all but eight of whom are in for misdemeanors, which are punishable by being compelled to work on the street. Be- loit has the largest representation of any town, there being five from there.  
—Anyone who grumbles about trade being dull, should visit Oskosh, Fond du Lac or Madison, where the checker-board is the busiest thing to be seen, and then return home and be content with waiting on their customers, even if they don't buy as large bills as they would like to have them.  
—Miss Estilda Lachapelle will commence her task of walking 100 miles in 24 hours at Lappin's hall to-morrow evening. Considerable interest is excited in this contest of legs vs. time, as no walking match has taken place here for a long time. The admission is so low that all can afford to drop in and see her.  
—The Beloit Graphic in speaking of the late junior exhibition there, thus speaks of one of Janeyville's representatives: "Wm. S. Jeffris, of Janeyville, is a very fluent and pleasant speaker, and gave the Greek oration elegantly. His oration, 'The Study of Nature as a Means of Culture,' was convincing and well delivered."

—Arm yourselves with your Bibles, and go to the Presbyterian church to-night to hear Rev. W. J. Erdman, in his series of Bible readings, which will be continued every afternoon at 3:30 o'clock and every evening at 7:45 o'clock until Thursday. Mr. Erdman has a wide reputation as a student and earnest worker.  
—Some one seems to have particular and peculiar spite against J. P. Dickson's fence on South Main street. Some years ago an attempt was made to burn it, and it was afterwards badly backed up with a knife and last night, another attempt was made to destroy it. Some one or ones succeeded in pushing down two or three lengths and have so far managed to escape detection.  
—The Court Street Methodist choir showed up strong yesterday. Besides its regular talent, it had the additional help of Mrs. C. B. Conrad, and Mr. J. P. Williams. Mr. Williams sang a fine solo in the evening. It is to be regretted that he cannot be induced to give the public more frequent chances to hear him. The public would enjoy hearing Mrs. Conrad more often also.  
—The Camilla Urso Concert company, which will appear in this city next week, will present some new talent, and will afford a much richer musical treat than when here before. Among the artists are: Miss Ivy Wandesforde, who has a pure soprano voice, and an especially fine ballad singer. W. C. Tower, a sweet-toned tenor who has created a sensation in Boston; Mr. J. F. Rudolph, who is acknowledged as the first baritone in America, and Herr Benno Selcsek, the celebrated Polish pianist.  
—Next Wednesday evening there will be a rare chance to hear fine music, it being the annual concert of the Bowe City Band. The programme is one of the best yet presented, and the band has been diligent and faithful in its practice. It is an organization in which every citizen should take pride, as it ranks high in the State, and it should receive hearty encouragement. The band however asks not for charity, as it will give more than the money's worth next Wednesday. Mrs. St. John and Mrs. C. E. Moseley have kindly consented to sing on that occasion, and Charles Patterson will give one of his inimitable character songs. Prof. Titcomb will preside at the piano. Seats can be reserved at any time without extra charge. As there will undoubtedly be a crowd, the wise ones will apply early at the diagram, and check off their places.

## DOCTRINAL DELVINGS.

Rev. Mr. Sawin delivered another of his able course of doctrinal discourses last evening at the Congregational church in which he showed the existence of a moral government with God as the ruler and man as the subject, and yet the relationship being the tender one of father and children. He based his argument of the existence of a moral government upon the human experiences and the inner consciousness of man, as shown outside of inspired writ. He took his hearers back into the past before any human pen had been dipped into inspiration, and quoted from the ancient philosophers and teachers, showing that they all assume this fact as an almost self-evident truth. They never stopped to discuss the fact that there was a Supreme Good, which we call God. They took that for granted as a truth which all from their inner feelings and consciousness would readily admit. He then proceeded to show that consciousness and omnipotence were the requisites of a Divine ruler, and these were possessed by the Supreme Good. Later in the discourse he pictured the relationship between this ruler and the human subjects. Man was made in the image of God, and the human attributes, such as love, justice, pity, when carried to an infinite power would constitute divinity. Men were God's offspring, and there was therefore due God from man all the obedience and loyalty, all the love and trust, which the child should feel in its parent. It is impossible to give a clear and concise review of the discourse. It was logically put together, and the arguments were so interlinked and clinched that no hasty outline would do it justice. Mr. Sawin showed a careful and thorough study of the subject, and an industrious search after the thoughts and opinions of the ancient authors and philosophers.

## THE WEATHER.

The thermometer reached 38 degrees above at 7 o'clock this morning; and 57 degrees above at 3 o'clock. One year ago to-day at 9 o'clock the thermometer stood at 54 degrees above and at 4 o'clock p. m. at 35 degrees above.

The indications are, clear or partly cloudy weather, winds mostly from the northwest, stationary or lower temperature, with rising barometer.  
There is reported over the wires a heavy rain in Cleveland, and a snow yesterday in Illinois, and a heavy snow storm, the fall being about eighteen inches deep, in Maine.

## PATCHING UP THE TICKETS.

The Democracy crawled timidly out Saturday night and thrust a few more candidates into the field. A caucus was held in the Third ward, which was organized by choosing Mr. M. C. Smith as Chairman and J. A. Allen as Secretary. The following nominations were then made:  
Alderman—James C. Smith.  
Supervisor—M. C. Smith.  
No nomination was made for Constable. A Ward Committee was chosen, consisting of Messrs. H. D. McKinney, J. M. Burgess and John Rothger.

A Fourth ward caucus was also held with H. W. Dewey as Chairman and John Lawler as Secretary. The following were placed in nomination:  
Alderman—Patrick Joyce.  
Supervisor—Martin Barron.  
Constable—August Lutz.  
School Commissioner—J. W. St. John.  
A Ward Committee was chosen consisting of Messrs. H. W. Dewey, Henry Skelly and Patrick Joyce.

TOOK A STUMBLE.  
Mr. Charles Atwood, of the firm of Hogueboom & Atwood, was horseback riding yesterday afternoon, and on reaching the corner of Court and Main streets, his steed tumbled on the crossing and fell, carrying

his rider under him. Atwood, speedily disentangled himself from the precarious situation, but not in time to prevent a rather bad sprain of the ankle, his foot being caught in the stirrup, and turned over. His arm was also somewhat injured, and he is now laid up at the house for repairs. No broken bones have thus far been discovered, and it is thought that the injuries will be speedily remedied.

## UNSAFE SAFE BURGLARS.

Four Business Houses Entered in One Night, and the Safes Blown Open—Escape of the Thieves With the Plunder—Other Devildry.

Word has been received from Brodhead that there was a general raid made there by burglars last Friday night, which seems to have been successful as far as the escape of the criminals is concerned, though the amount of plunder is not probably as large as the fellows expected to gain. It appears that during the night several business places were visited, but no success was attained except in four places, where the burglars managed to blow open safes in a rather awkward and bungling manner, which indicate that they were rather amateurs in the business, and not skilled professionals. It is estimated that out of the safes thus blown open they secured in all about \$100. The event has caused quite a little flurry in that generally quiet village. The officers think they are on the trail of the fellows who committed the burglary.

The following are those who suffered loss by the raid: R. Lazell, lumber yard; Mr. Bowen, lumber yard; S. Pierce, mill; Charles Mitchell, plow factory. The safe in each of these places was worked in the same manner, by drilling and then blowing open with powder. Bowen's safe was the heaviest loser, there being \$36 in his safe, which was blown open, causing such a concussion as to knock down the stove and break it. Bowen's safe had but little in it, and the others helped to fill up the thieves' plunder to the amount above stated. They seemed to be very bold about it, and it is a wonder that in their clumsy manner, and their carelessness in not smothering the noise by blankets, they did not arouse the sleepers of the village. To-day the officers have nabbed one young man near Evansville, and have locked him up on suspicion of being of the party.

Saturday night there were a number of burglaries committed at Monroe, and some think that these might have been done by the same parties who blew open the safes, but others think that they were of another gang. Several houses were entered and things pilfered from. In one house the thieves secured a new suit of clothes and \$20 in money. At another they helped themselves to all the edibles they wanted, and even went so far as to rob a hen's nest in the barn of some fancy eggs which had been just set for hatching out blooded chickens. It will be wise, to say the least, for the officers and citizens of this city to be on the sharp lookout, lest they receive a similar visitation.

## COLD-WATER CADETS.

The Cadets of Temperance, a juvenile cold-water secret society lately organized here, it being a sort of preliminary training school for the Sons of Temperance, seems to be rapidly growing in numbers. Its roll now embraces 65 names. The following have been elected officers:  
Worthy Archon—Rosa Parish.  
Vice Archon—Hattie Finch.  
Secretary—Ella Hackley.  
Treasurer—Belle Smith.  
Ass't Treasurer—Eddie Griswold.  
Chaplain—Nellie Harris.  
Guide—Arthur Wheelock.  
Usher—Frank Cox.  
Watchman—Allen Groves.  
Ass't Watchman—Carrie Young.  
The Cadets have a regular initiation service, which is said to be quite impressive, and the fact of its being a secret society makes it sufficiently unique to be attractive to the young folks, who seem greatly in earnest in the matter.

## A DECLINATION.

JANEYSVILLE, Wis., April 1, 1878.  
To the Republican Committee of the Fifth Ward.

GENTLEMEN: After a careful survey of the political horizon of this ward, I have come to the conclusion that the interests of all parties can be best promoted by my withdrawing from the contest. I therefore decline to have my name further used in connection with the office of Alderman of this ward. I earnestly request all my friends to give their support to Mr. H. F. Nobthorn, who will, if elected, serve them and the city at large in a manner that will be acceptable to all parties.

Yours truly,  
G. A. LIBBEY.

## TO THE VOTERS OF THE THIRD WARD.

It is my opinion that Alderman Church is not eligible for any office in his ward at the coming election, the statutes being very explicit.

I would also say that Mr. Blount is not eligible under the same statute. Therefore if we wish to save expense through illegal acts and litigation, let us cross them from our tickets and put on such men as ought to hold said offices.  
April 1, 1878.

## ABOUT THE FAIR.

To the Editor.

Are we to have a county fair, or by the want of enterprise among the business men of our city, will Beloit hereafter be the permanent locality for that institution? It is for ourselves to determine that question. Will you endeavor to find out what is the disposition of our people on this subject, and report in your next issue?

## INDEX.

—Mr. George Sears will soon put into his grist mill a lot of new machinery for doing custom work and also continue his manufacturing business.  
—Mr. Walter Shultz's pump giving out in his well he took it out and put a trap door in the platform and drew water with a rope tied to a pulley, and while Mrs. Shultz was drawing water one of her little girls about five years old dropped into the trap and fell to the bottom of the well. Fortunately the well was only about twelve feet deep, and Mr. Shultz being at home he went right down and saved the little one's

life. Some bruises are visible from the fall. A new well curb has been built since.

—Mr. Melvin Allen could not attend church last Sunday because he had to weigh that young son that has taken board with him.

—Mud for six months.  
—Mr. Anson Marshall, who has showed symptoms of insanity for a number of days past, has lost his reason, and his friends have placed him in the hands of Sheriff Colley for safe keeping.

—Dogs have been having a lively time at nights lately, chasing and killing sheep, but some of the canines have been caught and will not use mutton any more for a diet.

—Five and six cents a dozen for eggs now puts one in mind of hedge-row wheat times, when splendid wheat was sold to Jackson's Mills, in Janeyville, for 25 cents a bushel.

—Turtle Creek is illuminated almost every night with fishermen in search of pickers.

## CITY NOTICES.

Teeth like orient pearls set in cushions of rose. A breath like the perfume the toilet bestows. These are charms to win hearts when all other charms fade. But they can't be preserved without Sorodent's aid.

## LOCAL MATTERS.

Ladies and Gents will always find the nicest and cheapest Box and Staple Stationery in the city and Sutherland's Bookstore, No. 29 Main street.

Army and Navy officers make their headquarters at the Colonnade hotel, Philadelphia. So do leading business men from all sections, who for families and large parties of travelers it also offers unequalled attractions.

Why suffer with such a dreadful cough and cold. For 25 cents you can purchase your drug bottle of Dr. Marshall's Lung Syrup, and your cure is certain. Sold by E. B. Helmstreet, 4-dawid.

After all that has been said about "sweeping redactions," the Grand Central is the only first class hotel in New York that has made a "sweeping reduction." It offers first class accommodations for \$2.50 and \$3.00 per day.

Go to your druggist and enquire about Dr. Marshall's Lung Syrup. It is the best remedy known for breaking up severe colds of long standing. Price only 25 cents. Sold by E. B. Helmstreet, 3-dawid.

Shakespeare says "reputation is oft got without merit." While we agree with him on this point, we wish to express the opinion that reputation is not long earned without merit. The reputation of Brazilian Brilliant Favorites, as toilet preparations, is based upon real merit, and will stand in the future as it has in the past. Sold by Roberts, Stearns, and Croft & Sherer. dw

Dunbar's Wonderful Discovery.—Bothe's Water, the acknowledged cure of Bright's Disease, Diabetes, Kidney Affections of all kinds, Dropsy, Incontinence of Urine, Bilious Affections, Dyspepsia and Gouty Swellings. E. B. HELMSTREET, Sole Agent for this City.

## A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. J. P. INMAN, Station D, 1204 1/2 House New York City. sept16dwid

## For Sale or to Rent.

The two story brick dwelling house of William Lewis, very desirably located in the First ward near the corner of Jackson street and Mineral Point avenue. This house is being put in complete repair throughout, there are two lots, a good barn, two cisterns, grapes, apples, cherries, and other fruits, and is in all respects a very desirable place. ## An Astonishing Fact.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of druggists and your friends, and try one bottle of Dr. Williams' Pink Pills. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all druggists on the western continent. decidedwomw

Our Changeable Climate  
Makes a reliable remedy for Throat and Lung Disorders necessary in every household. Parker's Ginger Tonic is just the medicine needed. It radically cures Coughs, Colds, Sore Throat, Bronchitis, and even Consumption, if used in time, by its powerful specific action on the Stomach, Kidneys, Skin, Liver, and mucous surfaces of the Throat and Lungs. In this natural way it cleanses the waste matters from the blood, builds up the system, fortifies the system against further attacks, and permanently alters the infirmities of the Throat, Lungs, and other organs. It cures Dyspepsia, and its varied symptoms of Headache, Nervousness, Palpitation of the Heart, Wakefulness, Acid Stomach, Constipation, Liver Complaints, Coated Tongue, Low Spirits, Rheumatic Pains, etc., and gives comfort after a hearty meal. May a \$1.00 bottle from your druggist, A. J. Roberts, Janeyville, Wis., or a sample bottle at 15 cents, and test its extraordinary merits. ja3deww2wewar2

## Chicago Market.

CHICAGO, March 30  
Flour—The sales to-day were comparatively fair; the market was strong and no disposition shown among holders to crowd sales.  
Wheat—The market on spring wheat—This market was easier to-day. The wheat excitement having subsided to a considerable extent, the bears were placed in a position to exert some influence on the movement. Prices were somewhat irregular, but the fluctuations experienced were confined to a small range, and the session closed with the market 2 1/2c lower than the current quotations of last evening. The trading was about fair, and in speculative circles the deal was watched with more than ordinary interest. Local receipts last week amounted to 48,587 bu, and the shipments to 49,587 bu. To-day the inspection returns amounted to 4 cars, 42 of which graded No. 2.—Cash No 2 closed at 1 1/4 for gilt edge receipts. No 2 sold at 1 1/4 @ 1 1/4 1/2, and closed at 1 1/4. ## New York Mercury

FORTIETH YEAR OF PUBLICATION.

For forty years the New York Mercury has been the public's welcome guest throughout the length and breadth of the land. The Pioneer of Weekly Journalism, it has kept pace with the march of improvement and progress. As in the past so in the future, it proposes to retain its rank as the LEADING LITERARY, FAMILY AND MISCELLANEOUS JOURNAL OF THE AGE. Originality is a prominent feature, especially in its literary columns. Its Serial Stories are by the best authors, its extensive list of contributors embracing the names of the most celebrated AMERICAN AND EUROPEAN WRITERS OF FICTION. The Mercury has achieved a National Reputation for its sketches of Romance and Real Life, a field in which it has no rival. Another specialty is its TABLE-TALK DEPARTMENT. In which appears regularly the "best thoughts of the best minds," overflowing with diverting anecdotes, vivacious poetry, and quaint comments. THE HOME CIRCLE. While the Ladies are also sure to find in the Mercury articles of living interest to the sex. Children are catered to in a manner designed to instruct as well as amuse. RECORD OF PUBLIC AMUSEMENTS. The Mercury gives every item of public or personal importance in the Theatrical, Musical, Athletic and Variety World. Its correspondents, who cover both Hemispheres—ever faithful and industrious—contribute regularly full, comprehensive, and reliable budget of information, superior in accuracy and scope to that of any journal published.

SPECIAL FEATURES.  
The Mercury is the only recognized favorite of the Volunteer and Paid Fire Departments of the United States and Canada, as it does promptly and exhaustively, all attainable facts and gossip. During the Season of Out-door Sports many columns are devoted to the favorite game of Baseball. Its reports of games, and its tabular records of plays and players, are the best published. THE NEWS AND GENERAL DEPARTMENT. Always embraces special articles on timely and interesting topics; editorials, condensed news-items, humorous paragraphs, etc., etc. Altogether, in point of variety, quantity and quality, the New York Mercury is unsurpassed by any Journal in the World.

TERMS OF SUBSCRIPTION.  
The New York Mercury, with its fifty-six columns of sterling, original matter, will continue to be issued at Eight Cent a copy, and sold by all newsmen and periodical dealers in America. To mail-subscribers our terms for 1878 will be (cash in advance)—Single copies (postage paid), Three Dollars per Annum.
